

Security Assessment Report

Target: http://testphp.vulnweb.com

Mode: safe | Scan ID: be734b2b-62c9-442d-9ce2-90d92c02f251

Overall Risk Score: 0.0 / 10

Executive Summary

Automated assessment completed. Review tool evidence and findings.

Findings

Severity	Title	Type	Description
—	No confirmed vulnerabilities at this time.		

Recommendations

- Review open ports and exposed services
- Ensure Web Application Firewall is enabled
- Verify Ollama or cloud LLM service is active for AI reasoning

Reconnaissance Tool Evidence

nmap: not installed (install nmap for port scanning) | curl: available
